DOCKETED
ne

Pursuant to A.R.S. §§ 40-285, 40-301 and 40-302, Southern Sunrise Water Company ("SSWC" or the "Company"), an Arizona public service corporation, hereby applies for authority from the Arizona Corporation Commission ("Commission") to (1) issue evidence of indebtedness in an amount not to exceed \$577,200 on the terms and conditions to be set forth by the Water Infrastructure and Finance Authority ("WIFA"), and (2) encumber its real property and utility plant as security for such indebtedness. This debt will be incurred for the purpose of implementing a full-scale meter replacement program which would reduce water loss significantly, as well as promote water

1 conservation efforts by including usage tracking and leak detection capabilities, and
2 proper testing and equipping of existing wells which would ensure a sustainable supply
3 will be available.

4 In support of this application, SSWC states as follows:

5 **A. General Background.**

6 1. The Company is a public service corporation providing water service to
7 approximately 837 customers in Santa Cruz County, Arizona. SSWC's current rates and
8 charges were authorized in Decision No. 68826 (June 29, 2006).

9 2. SSWC's business office is located at 4055 Campus Drive, Sierra Vista,
10 Arizona 85635. Its telephone number is (520) 458-5470, and its telecopier number is
11 (520) 459-6680. The Company's primary management contact is Greg Sorensen.
12 Mr. Sorensen is also responsible for overseeing and directing the conduct of this
13 Application. His telephone and telecopier numbers are (623) 298-3753 and (623) 935-
14 1020, respectively. His email address is Greg.Sorensen@algonquinwater.com. All
15 discovery, data requests and other requests for information concerning this Application
16 should be directed to Mr. Sorensen, with a copy to counsel for the Company in this
17 matter, Jay L. Shapiro (jshapiro@fclaw.com).

18 3. Financial statements for the twelve-month period ending December 31, 2008,
19 are attached at **Exhibit 1**.

20 **B. Purposes of Financial Transactions.**

21 4. The primary purpose of the long-term debt financing contemplated herein is
22 to (A) Implement a full-scale meter replacement program which would reduce water loss
23 significantly, as well as promote water conservation efforts by including usage tracking
24 and leak detection capabilities, and (B) Properly test and equip existing wells which
25 would ensure a sustainable supply will be available.. The total estimated cost of the
26 additional plant and improvements is approximately \$577,200.00. The Company will

1 provide a detailed breakdown of the estimated cost of the water system improvements as a
2 late-filed exhibit. The water infrastructure improvements are necessary to reduce water
3 losses in system and promote water conservation, and to ensure a sustainable source is
4 available.

5 **C. Terms and Conditions of Financial Transactions.**

6 5. The Company has applied to WIFA for financing, in large part, because
7 WIFA expects to receive monies from the recent federal stimulus package. Copies of the
8 Company's WIFA application is attached hereto as **Exhibit 2**. However, the specific,
9 actual terms of the WIFA financing are not known at this time. SSWC will supplement if
10 and when such information becomes available.

11 6. The Company expects that its repayment obligation to WIFA will be secured
12 by the grant of a security interest in some or all of its real property and its water plant and
13 system, which property and facilities are yet to be identified.

14 **D. Effects of Financial Transactions.**

15 7. The Company's proforma balance sheet for the period ending December 31,
16 2008, is attached at **Exhibit 3**. The pro forma balance sheet reflects the impact of the
17 financing transactions that are the subject of this Application. The pro forma income
18 statements will be filed as a late filed exhibit to this Application. The loan proceeds will
19 be issued for lawful purposes, and the execution of the loan agreement with WIFA and the
20 grant of a security interest in SSWC's real property, plant and system, and the undertaking
21 of the obligations set forth therein are within the Company's corporate powers. A
22 Corporate Resolution authorizing the contemplated transaction is attached at **Exhibit 4**.

23 8. The financial transactions contemplated herein are compatible with sound
24 financial practices. SSWC has been urged by the Commissions Chairman to seek WIFA
25 financing to help address capital improvement needs with low cost financing SSWC
26 agrees that the pursuit of such financing is warranted.

1 9. The approvals sought herein are compatible with the public interest and with
2 the proper performance of SSWC's duties as a public service corporation. The proceeds
3 of the financing will be utilized exclusively to implement a full-scale meter replacement
4 program which would reduce water loss significantly, as well as promote water
5 conservation efforts by including usage tracking and leak detection capabilities, and
6 proper testing and equipping of existing wells which would ensure a sustainable supply
7 will be available. No portion of the proceeds will be used to pay operating expenses. The
8 approvals sought herein are necessary to ensure the Company's ability to continue to
9 provide safe and reliable water utility service in compliance with all applicable law and
10 regulation, including the rules and regulations of ADEQ.

11 10. The financing contemplated herein will not impair the Company's ability to
12 perform its duties as a public service corporation providing water utility service.

13 11. SSWC is in the process of providing notice of this application by publishing
14 notice, in the form provided by the Commission, in a newspaper of general circulation in
15 the area in which the Company provides service. Proof of publication and a true copy of
16 the notice as it appeared in the newspaper will be filed with the Commission.

17 12. The Company is submitting this Application at this time due to WIFA
18 requirements, and shall seasonably provide supplements as additional information
19 becomes available.

20 Based on the foregoing, Southern Sunrise Water Company respectfully requests the
21 following:

22 A. That the Commission consider this application on an expedited basis,
23 including the scheduling of a hearing, if necessary, on this matter as soon as practicable;

24 B. That the Commission enter an order approving this Application and
25 authorizing Southern Sunrise Water Company to incur indebtedness in an amount not to
26 exceed \$577,200 and to encumber its real property and utility plant and system to secure

1 such indebtedness for the purposes described hereinabove; and

2 C. That the Commission authorize Southern Sunrise Water Company. to take
3 such other and further action as may be necessary to effectuate the purposes of this
4 Application, as may be appropriate under the circumstances herein.

5 RESPECTFULLY SUBMITTED this 13th day of March, 2009.
